CORPORATE GOVERNANCE STRUCTURE

ANNUAL GENERAL MEETING

According to the Swedish Companies Act (2005:551), the annual general meeting (AGM) is the company's highest decision-making body. At the AGM, all shareholders have the right to exercise their voting rights on key issues, such as the adoption of income statements and balance sheets, appropriation of the company's profit, discharge from liability of board members and the CEO, election of board members and auditors, and remuneration of the board and auditors.

Shareholders who wish to participate in the AGM must be included in the shareholders' register maintained by Euroclear Sweden on the day falling five workdays prior to the AGM, and notify the company of their intention to participate no later than on the date stipulated in the notice convening the meeting. Shareholders may attend the AGM in person or by proxy and may also be accompanied by a maximum of two persons. Shareholders can usually register for shareholders' meetings in several different ways, stated more specifically in the notice of the meeting. Shareholders are entitled to vote for all shares held by the shareholder.

In addition to the AGM, the company may convene extraordinary shareholders' meetings. Shareholders' meetings are to be held in Stockholm and notice of shareholders' meetings shall be published in the Swedish Official Gazette and be kept available on the company's website. At the time of the notice, an announcement with information that the notice has been issued shall be published in Svenska Dagbladet.

At the AGM for 2019, which was held on 11 April, Michael Ruffolo was re-elected as chairman of the board and Sigrun Hjelmquist, Kent Sander, Arnd Benninghoff, Tuija Soanjärvi and Jonas Hasselberg as members of the board.

NOMINATION COMMITTEE

According to the Code, the company must have a nomination committee that has the aim of submitting proposals regarding the chair of general meetings, board member candidates (including the chairman), fees and other remuneration for each board member and remuneration for committee work, the election and remuneration of external auditors, and proposals for membership of the nomination committee for the next AGM.

At the AGM held on 11 April 2019, the meeting resolved that the nomination committee for the 2020 AGM should consist of representatives of the three largest shareholders listed in the shareholders' register maintained by Euroclear Sweden as of 31 August 2019, together with the chairman of the board, or another person appointed by the board who has good knowledge of Swedish corporate governance, who will also convene the first meeting of the nomination committee. The member representing the largest shareholder shall be appointed chairman of the nomination committee, unless the nomination committee unanimously appoints someone else. If one or more of the shareholders that appointed representatives to the nomination committee is no longer among the three largest shareholders earlier than three months before the AGM, representatives appointed by these shareholders shall withdraw and the shareholder that thereafter becomes one of the three largest shareholders can appoint their representatives. If a representative withdraws from the nomination committee before the nomination committee's work is completed and the nomination committee considers it necessary to replace him or her, such a replacement representative shall represent the same shareholder or, if the shareholder is no longer one of the largest shareholders, the largest shareholder in order.

Changes to the composition of the nomination committee must be announced immediately. The composition of the nomination committee for the 2020 AGM is normally to be announced no later than six months before the meeting.

No remuneration is to be paid to the representatives on the nomination committee. Edgeware is to pay any expenses that the nomination committee may incur in its work. The term of office for the nomination committee ends when the composition of the subsequent nomination committee has been announced.

At the AGM on 11 April 2019, it was resolved that the nomination committee ahead of the next AGM is to comprise representatives of the three largest shareholders in terms of votes registered on 31 August 2019 as owners in the share register maintained by Euroclear Sweden AB.

On 24 October 2019, the appointment of the nomination committee in Edgeware was announced. On 31 August 2019, the three largest shareholders in Edgeware were Amadeus Capital Partners (23.1%), Nordea Funds (9.4%) and Creandum (8.8%). However, Creandum declined participation in favour of Nordea Fonder, which is the fourth largest shareholder and owned 7.2% of the shares as per 31 August 2019. Accordingly, the nomination committee comprises representatives from Amadeus Capital Partners (23.1%), Nordea Funds (9.4%) and Volador AB (7.2%). The owners are represented by Anne Glover, Erik Durhan and Lars Kongstad, as well as the Chairman of the Board Michael Ruffolo. Anne Glover was appointed chair of the nomination committee.

For executive management residing in Sweden, a period of notice of one to three months applies for the employee and the employer. For the employer, the period of notice according to the Swedish Employment Protection Act (1982:80) applies in the majority of cases, which means the actual period of notice for executive management is longer than three months.

The CEO is entitled to severance pay amounting to twelve months' salary upon dismissal by the company. Except for the CEO, no employees are entitled to severance pay.

INTERNAL CONTROL

The board of directors and the board's audit committee are responsible for internal control. At the Group level,

the CEO, along with the Group's finance department, Head of Legal and the CFO, is responsible for every legal entity and for ensuring that the necessary controls are conducted together with adequate monitoring.

Internal control comprises the control of the company's and the Group's organisation, procedures and support measures. The objective is to ensure that reliable and accurate financial reporting takes place, that the company's and the Group's financial reporting is prepared in accordance with law and applicable accounting standards, that the company's assets are protected and that other requirements are fulfilled. The system for internal control is also intended to monitor compliance with the company's and the Group's policies, principles and instructions. Internal control also comprises risk analysis and follow-up of incorporating information and business systems.

INTERNAL CONTROL OF FINANCIAL REPORTING 2019

The board of directors is responsible for internal control in accordance with the Swedish Companies Act and the Code. The Annual Accounts Act states that the corporate governance report is to include information regarding the most important aspects of a company's system for internal control and risk management in connection with financial reporting.

To date, Edgeware has found no reason to establish a separate function for internal control as the company is still relatively small. Internal control is therefore carried out by the board's audit committee and by the board of directors itself.

EXTERNAL REPORTING

The board of directors monitors and evaluates the quality assurance of financial reporting through interim reports on the company's business development and earnings trend and by addressing the Group's financial situation at each scheduled board meeting. The company's auditor is present at three audit committee meetings per year, when the result of the audited year-end accounts and the third quarter accounts are presented. On these occasions, any changes to accounting policies relevant to the company are also presented. In connection with the review of the year-end accounts, the board meets the company's auditor without the presence of executive management.

The internal system for reporting and control is built around annual financial planning, interim reporting

and daily follow-up of business-related performance measures in order to facilitate external reporting and risk management.

The Group's legal and financial functions control and monitor the accuracy of reporting and compliance with internal and external regulations. In addition to compliance with laws and regulations, the functions also control compliance with internal rules and guidelines for the tasks of the financial control function. The company's internal rules and guidelines are gathered in the company's policies, such as the financial policy, IT policy, and the Code of Conduct and in the employee handbook.

It is the responsibility of the audit committee to identify and handle any major financial risks and the risk of mistakes in financial reporting in order to ensure correct financial reporting. One specific priority is to identify processes where the risk for material error is relatively higher due to the complexity of the process or in contexts which involve substantial values.

The company follows an annual cycle in its work to evaluate risks, which includes evaluation of identified risks and implementing and ensuring compliance with relevant control activities. Internal control aims to identify risks and any inaccuracies that could have a material impact on the company's financial reporting. The risks identified require internal control in order

to minimise the risk of error. Relevant control activities have been implemented for all identified risk areas. For each control activity, it has been defined what activity is to be carried out, by whom and where documentation for the implemented control is to be archived. The controlling person is separate from the person who performs the process in line with the four-eye principle.

AUDIT

The auditor is to review the company's annual reports and financial statements as well as the management of the board and the CEO. Following each financial year, the auditor shall submit an audit report and a consolidated audit report to the AGM. According to the company's articles of association, the company is to have a minimum of one and a maximum of two auditors and a maximum of two deputy auditors. Authorised public accountants or a registered public accounting firm is to be appointed as auditors and, when appropriate, deputy auditors. The company's auditor is Deloitte AB, with Andreas Frountzos as the Auditor-in-Charge. In 2019, the remuneration of the company's auditor totalled SEK 0.8 million (0.7), of which SEK 0.7 million (0.6) comprised audit fees.
